

# TECHSELECT

A customizable and cost efficient way to access and download the best SAE technical papers to meet your needs.

SAE technical papers are peer-reviewed and written by leading experts in the field. They cover the most up-to-date, groundbreaking engineering research on issues impacting the automotive, aerospace, and commercial vehicle industries. If you typically purchase seven or more SAE technical papers over the course of a year, a subscription to TechSelect not only saves you money, but also makes it easier for you to find and download the papers that you want.

Search the entire SAE Mobilus® platform of:

**107,000+**  
full-text SAE technical papers  
from 1906 through the present

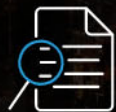

**81,000+**  
technical papers focused  
on the automotive sector

**19,000+**  
technical papers focused  
on the aerospace sector

**7,400+**  
technical papers focused  
on the commercial vehicle sector

## SAE Mobilus Access Drives Efficiency

Searching for a specific technical paper? Find it by name in an instant. Looking to solve a problem, but not sure what exact resource you need? Filter the entire collection by topic, sector, date, and more.

**Faster, more powerful  
search engine**

**Customizable Dashboard**  
keeps pertinent materials  
accessible to users

**Quickly filter search results**  
by topic and publication date

**Full details page**  
to ensure you are getting  
the content you need

Design Your Ideal Subscription | With your choice of up to 10, 20, 35 or 50 downloads a year.
